# Final Project Submission

DeepCompile: AI-Driven Compiler Optimization

Roll Number: 24CSB0A06 · Date: April 19, 2026

## Performance Benchmark Report

**Generated:** 2026-04-19T12:26:06.358501Z

**Evaluation mode:** deterministic rule-based (`--no-llm`)

### End-to-End Latency

- Average orchestrated latency: **4.5553 s**
- Median orchestrated latency: **3.0267 s**
- Average baseline-pipeline latency: **0.0025 s**

### Average Stage Timings

- Analysis parse: **0.0006 s**
- Analysis rule checks: **0.0007 s**
- Optimization rule transforms: **0.0006 s**
- Verification parallel checks: **4.2473 s**
- Security total scan time: **0.0032 s**

### Notes

- These timings are measured from deterministic rule-based runs only.
- Optional LLM timing is intentionally excluded from formal evaluation.
